

Course Title: Middle School (MS) Bible

Description:

The Bible has never been more accessible. The average Christian home owns multiple copies of the bible and probably has at least one Bible app on their favorite device. Scripture is readily available, yet biblical literacy is arguably at an all time low. Let's not let that stand with the next generation.

The desire for this class will be to help the student both read and understand scripture. We will spend the first semester walking through the Gospel of John with the desire to learn how to ask questions and discuss God's Word. Second semester will be focused on diving deeper into God's word and answering questions the student might have about portions of scripture.

The goal of this class is not to overburden the student with homework or busy work. The grades will be assessed by class participation which will mean they need to keep up with the reading of the scriptures for that week.
